

## Carpenter in Canada

Immediately for a period of 12 – 18 months

### Company & Job Details:

This is an innovative wood frame and mass timber prefabrication company located in Pemberton BC, Canada. Our facility is in a region world renown for outdoor activities such as skiing, mountain biking and hiking. We are looking for applicants that work well with a team and have experience in timber construction. In our team we speak different languages: German, French and English.

### The job offer:

- Construction of wood-first prefabricated panel systems.
- Carpentry for Glulam and Mass Timber Components
- Onsite installation of prefabricated building packages.
- Working with the Cad work 3D Drafting software

### Requirements:

- Education and Experience in Carpentry / Timber Framing
- Attention to detail and production of high-quality work.
- Positive attitude and high standards for safe work

### What is offered:

As a production-based facility, we supply all tools and resources required to work effectively. Training specific to local equipment and safety standards will also be included. We are offering seasonal and long-term employment, with room to develop your career and skill set in British Columbia.
