

Farm Equipment Operator in South West Ontario

From April to November or December

Company & Job Details:

The farm is an organic cash crop operation and the owners have immigrated to Canada from Switzerland in 1996 and started farming organically in 2000. They have a family like work environment. Currently they grow about 240ha of corn, 450ha of Spelt and 450ha of Soybeans. They are running mainly Fendt tractors and they have Einbock in-row cultivators and they run a Weed zapper for additional weed control. They are doing all of their own drainage work. Every year they pull in drain tile in the summer to increase our field productivity. They have a grain cleaning facilities where they clean their spelt and soybeans and operate as an organic grain elevator.

Duties:

- Help with tillage, mechanical weed control, harvest and manure spreading
- Mechanical and maintenance work in the shop on vehicles and machinery depending on skill set
- Assisting with other farm related jobs such as building projects and install drain tiles

We offer:

- Accommodation, a private (single) room in a shared house, apartment or bunkhouse
- Company truck for work commute, grocery runs and private use
- Hourly pay (rate depending on experience)

Requirements:

- Must have a positive and willing attitude
- Age 18 – 35 – basic english language skills
- International driving license for car (B)
- You need either an education in one of the following professions: farmer, agricultural machinery mechanic, construction machinery mechanic, truck mechanic or two years of experience in one of the mentioned professions or you have grown up on a farm
-
