

## Carpentry wood finishing in Canada

Immediately for a period of 12 - 18 months

### Company & Job Details:

The company is a family-owned business in the Canadian Rocky Mountains, which was established in 1979. We are a smaller company employing approximately 14-18 people depending on the workflow. We specialize in high quality custom fabrication for residential and commercial buildings throughout Western Canada. We use the latest machinery to produce a high-quality product. If you love the mountains and all the things that come with living in the mountains, then you will love working for our company!

### The job offer:

- Staining and varnishing a wide range of woodwork
- In-house production of pickling mixtures
- Spraying of solvent-based and water-based paints, including polyurethane color paints
- Efficiently organize trainees/assistants in the various tasks involved in finishing and control quality
- Teach apprentices the basics of painting
- Repairs on the work site
- Refurbishment of a wide range of furniture
- Staining and painting on site.

### Requirements:

- At least 5 years of experience as a carpenter / cabinet maker
- You must be familiar with working with high quality custom wood that requires a variety of stains, colors and finishes.
- You must be organized, efficient and accurate to perform the duties and responsibilities of this position.
- You must be proficient in the use of all finishing equipment.
- You must have a good knowledge of the various solvent and water-based coatings, solvent-based stains and polyurethane coatings.
- You must be able to work well with other staff and participate in apprentice training.
- You should be able to work independently and as part of a team
- You should be willing to work overtime when the workload is heavy. It is necessary to be clear about what quality of execution is expected
- Be willing to ask questions when unsure if the workmanship meets the standard

### What is offered:

- Fair and competitive compensation depending on experience
- Social benefits after completion of 6 months of employment.
- Varied and interesting projects and furthermore with a great team
- Be a valued member of a growing company and get what you put into it.

### Salary:

Salary is based on experience and may be increased with appropriate performance. Health and dental benefits are available and begin after 6 months of employment.
