

Carpenter in Canada

Immediately for a duration of 12 - 18 months

Company & Job Details:

The company is a family-owned business in the Canadian Rocky Mountains, which was established in 1979. We are a smaller company employing approximately 14-18 people depending on the workflow. We specialize in high quality custom fabrication for residential and commercial buildings throughout Western Canada. We use the latest machinery to produce a high-quality product. If you love the mountains and all the things that come with living in the mountains, then you will love working for our company!

The job offer:

The employer focuses on high quality, custom products for residential and commercial buildings. YOU would be part of the team that consists of experienced craftsmen. The successful candidate will assemble cut parts at the workbench using drawings and cut lists provided by the office. They will perform all other work required to meet production deadlines. You will assist the machine operator, as needed, and requested by the shop foreman, in cutting and planning all solid wood and panel products according to cutting lists provided by the office.

Requirements:

- Carpenter (journeyman) certification and at least 5 years of work experience in the field.
- Familiar with the production of custom furniture
- Solid command of the English language, both written and spoken
- You must be organized, efficient and accurate to perform the duties and responsibilities of this position
- Proficiency with all basic production equipment, e.g., sliding table saws, jointer and thickness planers, drum sanders, chop saws, 4-sided planers, edge sanders, slotting and dowel hole machines, veneer presses, etc.
- You should have a good knowledge of different types of solid wood, plastic laminates, plywood, particleboard, veneer and veneered particleboard/MDF
- You should be able to work well with other staff and participate in apprentice training
- You must be able to work independently and as part of a team
- You must be able to accept constructive criticism without egotism
- Assembly experience is not required, but an advantage

What is offered:

- Fair and competitive compensation depending on experience
- Benefits after completion of a 6-month probationary period
- Opportunity to learn new systems with support from team members and managers
- Varied and interesting projects in BC and beyond with a positive team
- Be a valued member of a growing company and get what you put in.

Salary:

Salary is based on experience and may be increased with appropriate performance. Health and dental benefits are available and begin after 6 months of employment.
